Dan Farine : New technologies for managing labor (Hot Topics in Perinatal Medicine) before purchasing it in order to gage whether or not it would be worth my time, and all praised New technologies for managing labor (Hot Topics in Perinatal Medicine):

Different technologies have been introduced to improve management of labor. To date there is no single text that aims at covering all these technologies that address different problems and issues in labor management. The book reviews

new technologies and devices aimed to improve labor management and outcomes. These diverge between looking at a better way to use fetal heart rate monitors (that are used in 90% of labours); using new monitors to detect the

About the Author Dan Farine, Professor of OB/Gyn and Medicine, Head of Maternal/Fetal Medicine Division Head, University of Toronto.
