Richard Ten Cate BDS BSc PhD DSc(Hon) DDS : Oral Histology: Development, Structure and Function, 5e before purchasing it in order to gauge whether or not it would be worth my time, and all praised Oral Histology: Development, Structure and Function, 5e:

This is the leading text required for undergraduate dental students studying oral histology written by a renowned panel of histologists and oral biologists at the cutting-edge in their fields. The fifth edition has been reorganised and condensed to provide a more useful format for learning that coincides with the curriculum utilised in most universities. In addition to being updated with the latest information on the integration of oral histology, physiology, embryology and postnatal development, this text features over 870 illustrations.* Authoritative and up to date for the latest

developments in oral histology. * Clearly written, consistent and well illustrated to facilitate learning. * Contributed by a renowned panel of histologists and oral biologists who bring years of clinical expertise and teaching skills to the textbook. * Thoroughly illustrated with high quality photographs and micrographs, and a 48-plate color section. NEW TO THIS EDITION: * 48 color plates cross referenced throughout the text provide brilliant reproduction and aid in recognition. * Reorganization of materials streamline the text and focus on the curriculum used in most dental schools. * New Questions and Controversies boxes provide insight on current research and trends, foster class discussion, and provide avenues for further research. * Hand picked Suggested Readings guide students to the most valuable references used throughout the text. 48 colour plates which are cross-referenced throughout. Reorganisation of materials streamline this text and focus on the curriculum used in most dental schools. Questions and Controversies boxes provide insight on current research and trends, foster class discussion, and provides avenues for further research. Recommended Reading guide students to other valuable references relating to the topics covered.
