From Brand: S Karger Pub : Oxidants and Antioxidants in Cutaneous Biology (Current Problems in Dermatology, Vol. 29) before purchasing it in order to gage whether or not it would be worth my time, and all praised Oxidants and Antioxidants in Cutaneous Biology (Current Problems in Dermatology, Vol. 29):

Are free radicals and reactive oxygen species relevant to dermatopathology? Do antioxidants protect against free-radical-mediated cutaneous diseases and aging? To these and further current questions in the rapidly progressing field of basic and applied skin research, this up-to-date volume provides a scientific basis. It presents state-of-the-art

reviews on the progress in detection of free radicals and antioxidants and their responses to environmental oxidative stressors. Furthermore, several expert contributions focus on the exciting developments in oxidative DNA damage and UVB- and UVA-induced signal transduction in skin. Finally, information is given on new antioxidant protection strategies against skin carcinogenesis and skin aging which may be fundamental for the pharmaceutical or skin-care products of tomorrow. Due to its unique and up-to-date collection of state-of-the-art contributions by many of the worlds leading scientists in the field, this book will be essential reading for dermatologists, cosmetologists, pharmacologists and environmental toxicologists.
