From Brand: Informa Healthcare : Pharmacology and Pathophysiology of the Control of Breathing (Lung Biology in Health and Disease) before purchasing it in order to gage whether or not it would be worth my time, and

all praised Pharmacology and Pathophysiology of the Control of Breathing (Lung Biology in Health and Disease):

Exploring the functional anatomy and physiology of the ventilatory control system from the intracellular to the integrative level, this reference serves as the first source to offer comprehensive coverage of the influences of various pharmacological agents on the control of breathing.

[this book] has been creatively conceived and gestated by Drs. Ward, Dahan, and Teppema. one need only reflect on the potency of the tools currently available to our imaginations to realize there is a world of understanding out there waiting to be explored. Within this volume are many enticing next steps.
