I had the bad experience last semester with buying book online, but this time I got what was said. Thank you1 of 1 people found the following review helpful. Came as mentioned in postingBy Victoria VerunaIt was in great condition and was prompt on the timing. The book was nicely used and pages seemed to be never written on. Much Appreciated!1 of 2 people found the following review helpful. awesomeBy Dominique FerralottaThanks so much! Everything that was promised, I received. Shipping was on time, the front cover was a little ripped and scuffed, but how can I complain for a book for a dollar! :)

This book is an excellent book; images are clear and informative. Be aware that this book comes LOOSELEAF and THREE-HOLE PUNCHED. It is not a paperback bound book; it is NOT BOUND AT ALL. You must place it in a binder to keep it together.
