Richard Justin Ingebretsen MD PhD : Physica De Humano Corpus: Physics of the Human Body before purchasing it in order to gage whether or not it would be worth my time, and all praised Physica De Humano Corpus: Physics of the Human Body:

This innovative text is a guide to how the body works. In it, you will find subjects such as energy metabolism, heart and lung function, blood pressure, how x-rays are created and used, the effects of trauma on the body, as well as how the eye perceives optical illusions.
