Cindy L. Stanfield : Principles of Human Physiology (5th Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Principles of Human Physiology (5th Edition):

1 of 1 people found the following review helpful. Do not rent!!!By JenDo not waste your money to rent with access code read the fine print not guaranteed to receive access code have to pay additional money to actual book publisher to receive you're better off renting at cheaper price since you still have to pay for your access code0 of 0 people found the following review helpful. very impressed.By 'I bought this to help learn how our parts work in our body in conjunction with each other. Way more than I expected, I'm very impressed. It's like a premed book.0 of 0 people found the following review helpful. Like NewBy HoolioCZGreat book for the price. Like new

Principles of Human Physiology, Fifth Edition integrates clinical connections and stimulating critical thinking questions in a clear and engaging visual presentation that makes it easy for you to learn, understand, and apply key physiological processes. The new Fifth Edition includes even more assessment questions and dynamic new features including new Focus on Diabetes boxes, Health Facts and Functional Facts margin icons, consistent attention to

clinical connections, and a revitalized art program that enable you to focus your attention on the most important concepts. Note: This is a standalone book, if you want the book/access card order the ISBN below: 0321810147 / 9780321810144 Principles of Human Physiology Plus MasteringAP with eText -- Access Card Package Package consists of: 0321819349 / 9780321819345 Principles of Human Physiology 0321842162 / 9780321842169 MasteringAP with Pearson eText -- ValuePack Access Card -- for Principles of Human Physiology 0805361170 / 9780805361179 Interactive Physiology 10-System Suite CD-ROM (component)

About the Author Cindy L. Stanfield earned a B.S. degree and a Ph.D. in physiology at the University of California at Davis. Her exposure to neurophysiology research as an undergraduate sparked her interest in pursuing a Ph.D. As a graduate student, Stanfield studied the role of neuropeptides in pain modulation and taught several physiology laboratory courses, which led to her interest in teaching. She currently teaches human physiology and neuroscience lecture courses and a lecture/discussion course in issues in biomedical sciences at the University of South Alabama. Cindy recently retired her research responsibilities to take on advising prehealth students She currently serves as the National President of Alpha Epsilon Delta (AED), the national Prehealth Honor Society. Cindy received the College of Allied Health Professions Excellence in Service Award in 2003, and the University of South Alabama Alumni Association Excellence in Teaching Award in 2004. She is an active member of several professional organizations including the Society for Neuroscience, the International Association for the Study of Pain, the American Pain Society, and the National Association of Advisors for the Health Professions. She lives in Mobile, Alabama, with her husband, Jim, and their many cats and dogs.
