Patricia Schnering : Professional Review Guide for the RHIA and RHIT Examinations: 2009 Edition (Professional Review Guide for the RHIA RHIT) before purchasing it in order to gage whether or not it would be worth my time, and all praised Professional Review Guide for the RHIA and RHIT Examinations: 2009 Edition (Professional Review Guide for the RHIA RHIT):

3 of 3 people found the following review helpful. Awesome!By BekaThis is great! I sat for my RHIT in 2015 and missed by a few points. I used the AHIMA RHIT exam prep 2014. When I sat in 2015 I didn't see much of what was in the AHIMA exam prep... but with this PRG I'm sure I will see more of what will be on the text.23 of 24 people found the following review helpful. Product not as describedBy grannyQI purchased this book for an RHIT prep course. I pre-ordered the 2013 edition because I thought it would be best to have the latest updates, even though it

would not arrive until the second week of school. To be fair, this book does have a lot of good information and references for those studying for the RHIT exam. However, the description of the book says that it includes a CD-ROM and free access to practice exams online. Mine came with neither. I am VERY disappointed with my purchase. I really don't want to return the book because I am halfway through a six-week course. So I really feel stuck on this one. I do not recommend this edition of the professional review guide to anyone at this point. 4 of 4 people found the following review helpful. RHIT review prep guide By JM BI used this book to prepare for my RHIT exam which I successfully completed during my final semester of study in April. I anticipated taking the exam under ICD-9 and in hindsight that was a good call, considering ICD-10's postponement. This book organized the material I needed to review. It provided questions in appropriate areas of review that required me to think about the optional answers and ask myself what I knew about each option. This provided a very good means of reviewing the material and topics covered in the RHIT exam. Some of the material I found I'd forgotten about since my initial courses and using this guide helped me to identify areas to review. One criticism is that some of the page numbers for reference materials seemed off, the actual information was often found nearby but not on the pages cited. There was a red, white, and black cardboard flap inside the front cover with an access code as opposed to a CD. I used this site to do additional review but unlike the text it only tells you you got the question wrong without citing a reference source. All in all I found this book a helpful resource for organizing my review and preparing me for the exam.

Are you ready for your exam? Use this book and the interactive CD-ROM to help you prepare for the AHIMA Clinical Registered Health Information Administrator (RHIA) and Registered Health Information Technician (RHIT) certification examinations. This packed resource maps to the most current AHIMA-COC standards and provides strategies, test-taking skills, and a great comprehensive mock examination to practice.

I want the students to practice the format which the exam will be given in and apply what they have learned in the practice sessions. Breaking up the questions with each section that the students will be responsible for answering helps the students gain the confidence in sitting for that 5 hour exam. The CD is great as this is how the exam is offered. The students can study from the PRG and then practice with the CD-ROM which is just like the actual exam. Mary M. Cantwell, RHIT, CPC, CPC-H, CPC-I, RMC, Professor, Metropolitan Community College, Omaha, Nebraska. About the Author Patricia Schnering is an adjunct instructor of HIM at St. Petersburg College, and serves on its advisory board. In addition to experience as an HIM supervisor and consultant, she is the founder and owner of PRG Publishing Inc., where she published the first Professional Guides. Ms. Schering has served as president of GCHIMA and on FHIMA's board of directors, where she twice received the FHIMA Literary Award. She is also a member of AHIMA and the Assembly on Education (AOE). In addition to a B.S. in business administration from the University of South Florida, she is a graduate of the health information management program at St. Petersburg College, and holds both CCS and RHIA certifications.
