Inc. BarCharts : Senses (Quickstudy: Academic) before purchasing it in order to gage whether or not it would be worth my time, and all praised Senses (Quickstudy: Academic):

4 of 4 people found the following review helpful. Very Helpful By M. Woot Used for a course in biological psychology, and also came in handy for a linguistics course which covered a lot about speech and hearing. Covers the basics and more with clear and very in depth labeling. Includes much more information than I need (perhaps more suited for medical students) but still served my purposes just fine. Very useful study guide. 0 of 0 people found the following review helpful. Five Stars By jkirthperfect 0 of 0 people found the following review helpful. Five Stars By Jesusexcelente

Complete, labeled illustrations of the senses. From pre-teen to pre-med, this chart is loaded with beautifully illustrated

diagrams, clearly and concisely labeled for easy identification. Illustrations by award-winning medical illustrator Vincent Perez. Chart includes detailed diagrams of: head: eye, ear, nose mouth hearing, inner outer ear touch, epidermis taste, mouth tongue smell, nose seeing, eye
