James S. Lowe BMedSci BMBS DM FRCPath, Peter G. Anderson DVM PhD : Stevens Lowe's Human Histology, 4e (HUMAN HISTOLOGY (STEVENS)) before purchasing it in order to gage whether or not it would be worth my time, and all praised Stevens Lowe's Human Histology, 4e (HUMAN HISTOLOGY (STEVENS)):

0 of 0 people found the following review helpful. Five StarsBy Roman VelezIt is a great book!

"A well produced book that our trainees and students like." By PathLab.org, March 2015Learn from an easy-to-read writing style and well-designed, full-color layout to present of all histology's need-to-know content.Conveniently access important information through a design that sets off the key laboratory, clinical, and high-level scientific material in boxes.Take advantage of an increased amount of clinical content and photos.Master the basics of the field

with an enhanced focus on cell biology. Quickly review important information with reviews available at the end of each chapter and online, Key Facts boxes throughout the chapters, MCQs in the text, plus 180 additional review questions online. Easily visualize complex procedures and concepts with nearly 900 illustrations, photos, and graphics. Student Consult eBook version included with purchase. This enhanced eBook experience allows you to search all of the text, figures, references, and videos from the book on a variety of devices.

"This is a timely and well-crafted update of a well-regarded book. Students of histology will get all of the pertinent information either as short key concepts or as more detailed descriptions and the importance to understanding disease processes. When comparing this book to other histology textbooks, the one minor quibble I have is the size of the images. In some cases, they seem too small and in other cases, they seem too tightly cropped." George K. Niiro, PhD(Midwestern University) "A well produced book that our trainees and students like." by: Pathlab.org Date: March 2015
