Also, the Shipper, Textbook Rush sent the book Media Mail and it was shipped to me within 5 days (calendar days). Thank you Textbook Rush! I would highly recommend the Shipper as well. Straight A's in Pathophysiology is an excellent review for the NCLEX and for pathophysiology courses from the LPN through the BSN level. It follows the unique and highly visual two-column Straight A's formatan in-depth outline review in the inner column and a quick-scan key points refresher in the outer column. Other study aids include "Top

10" Lists that save students time before exams, Time-Out for Teaching tips on patient teaching, Go with the Flow algorithms, dozens of illustrations, and a 16-page full-color insert. The book and bound-in CD-ROM contain hundreds of NCLEX-style questions including alternate-format questions with answers and rationales.
