By Dr. WhoI used this Workbook to organize my knowledge as I read through the textbook, but the unfortunate lack of a full Answer Key limits its effectiveness. Furthermore, the majority of the Workbook questions are short-answer questions that can be answered by merely checking the corresponding section in the textbook. In effect, it simply ensures that you, the student, read the text. It does not aid in actual comprehension of the subject matter, which thoroughly disappointed me. Thus, the Workbook rarely probes deeper than surface-level knowledge that can be regurgitated straight from the text, which may not be helpful in acing a difficult course. To that end, it did not adequately prepare me for the heavily conceptual exams in my Human Physiology course. Whatever level the

Workbook is at, my Professor always managed to make the exams a few levels harder. Instead of this Workbook, I'd suggest the Mastering A P online companion to the Silverthorn text. It costs roughly the same (\$55) as this Workbook, but the benefits are innumerable. With diagrams, videos, virtual experiments, and quizzes, the online companion is a significantly greater learning tool than this Workbook. You're welcome. 0 of 0 people found the following review helpful. Five Stars By marina ward Thank you!!! 0 of 0 people found the following review helpful. Why can't all my textbooks have one of these? By Bernadette I love this thing! for \$15, it's a great study tool. I wish my biochemistry class had this
