Leland Hartwell : Study Guide/Solutions Manual Genetics: From Genes to Genomes before purchasing it in order to gage whether or not it would be worth my time, and all praised Study Guide/Solutions Manual Genetics: From Genes to Genomes:

10 of 10 people found the following review helpful. Obviously copied from previous editionsBy StudentThe answers

to the questions are obviously from an older edition. Answers to questions that don't exist in the 4th edition are present, while there are no answers for the new questions. Simply a rip-off. If you want the solutions manual, you might as well buy the 3rd edition. I have a strong feeling they are the same thing. That said, the answers that they do have (if you search a bit - most of the problems are just off by a few numbers because they were in the old edition) are rather comprehensive. Also, the summary of each chapter is useful. 2 of 2 people found the following review helpful. Helpful but inconsistent By PinsandNeedles I found this book helpful when solving problems at the end of the chapters however for some of the chapters, it seemed like some of the questions were either out of order or missing when compared to the textbook it accompanies. It's as if this book is a recycled version of some older edition. The explanations were clear and helpful but I would expect the questions in this book to mirror those in the textbook. That was not always the case. I would still recommend it because it still helped me with some of the problems. 1 of 1 people found the following review helpful. good reference, not edited for content By assjkada I thought this was helpful overall, however it was not edited for content or grammar. Many of the problems have the incorrect problem number as compared to the book (I had to go searching a bit), the content and explanations were there, but much of the grammar and spelling were wrong as well. Helpful study guide though I wish it had been a edited correctly!

Answers to all Hartwell problems (odd and even-numbered) are provided in the printed Solutions Manual/Study Guide (ISBN 0-07-299587-4). The answers provided in the back of the book are brief answers to the odd-numbered questions. The answers in the printed Solutions Manual are more detailed and include answers to the even and odd-numbered questions.

About the Author Dr. Leland Hartwell is President and Director of Seattle's Fred Hutchinson Cancer
