Lorna Woodbridge, Dush Shetty, Grant Mitchell : Succeeding in the FRCR Part 1 Anatomy Exam (Medipass) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Succeeding in the FRCR Part 1 Anatomy Exam (Medipass):

The FRCR Part 1 exam is the first in a series of daunting exams that candidates must pass before becoming a fellow. This book aims to assist would-be fellows in their preparation for the examination. It consists of 400 images divided

into 20 separate exams it aims to replicate the real exam as closely as possible.

About the Author Dr P Bhogal trained at Royal Free and University College London Medical School and graduated in 2004. After University he passed his MRCS Exam and is currently studying for a Masters Degree in Medical Education. He entered Radiology training in 2007 and passed his FRCR Part 1 on the first attempt. Gauraang Bhatnagar is a radiology registrar on the Peninsula training scheme. He moved to the South West in 2008 after completing basic surgical training in London. A firm believer in the statement that "he's a doctor not a physicist" (Dr Leonard 'Bones' McCoy, Star Trek) he found question books such as this one the ideal way to revise for the FRCR Part I.
