**pearson : Symbiosis (the pearson custom library for biological sciences)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Symbiosis (the pearson custom library for biological sciences):

0 of 0 people found the following review helpful. Great buy!By Pen NameAlthough this book is used I still ordered it.I'm glad I did because this retails for around \$70 I'm only going to use it for one class and it's worth the \$12 this includes the shipping. Although it's used there's no writing and looks almost brand new.Very happy customer.0 of 0 people found the following review helpful. Information was thorough and useful.By SandyArrived just as expected and on the time. Information was thorough and useful.

No damage or wear at all, best condition possible
