From Brand: BMJ Books : Systematic Reviews in Health Care: Meta-Analysis in Context before purchasing it in order to gage whether or not it would be worth my time, and all praised Systematic Reviews in Health Care: Meta-Analysis in Context:

0 of 0 people found the following review helpful. but still an excellent primer. Not a lot of math or specifics ...By ARGA little dated at this point, but still an excellent primer. Not a lot of math or specifics on how to do. Great sense of what matters and why though. Adds a feel for the process if not arming the reader with a lot of how tos.0 of 0

people found the following review helpful. Five StarsBy Rah Kee YoungExcellent1 of 1 people found the following review helpful. Four StarsBy CustomerA necessary purchase for grad school.

The second edition of this best-selling book has been thoroughly revised and expanded to reflect the significant changes and advances made in systematic reviewing. New features include discussion on the rationale, meta-analyses of prognostic and diagnostic studies and software, and the use of systematic reviews in practice.

A valuable resource to those preparing, appraising and using systematic reviews. Highly recommended. --
International Journal of Epidemiology, Sept 2002
