Edward Hertwig Mark : Text-Book Embryology of Man and Man: And Mammals Embryology of Man and Mammals, and Oscar Anatomy, Professor (Classic Reprint) before purchasing it in order to gage whether or not it would be worth my time, and all praised Text-Book Embryology of Man and Man: And Mammals Embryology of

Man and Mammals, and Oscar Anatomy, Professor (Classic Reprint):

Embryology in all morphological studies makes it desirable that the most valuable text-books upon the subject, in whatever language, be made available for those who are beginning its study. Although the English-reading student already has at command a number of text-books upon this subject, it is evident to any one familiar with HEHTWIG SL ehrbuch der Entwicklungsgeschichte des Menschen und der Wirbelthiere that this work covers the field of Vertebrate Embryology in a more complete and satisfactory way than any book heretofore published in English. Two important objects to be accomplished in a text-book are: first, a clear and methodical exposition of the well-established facts of the science; and, secondly, such a presentation of unsettled questions as shall stimulate the reader to further inquiry and research. I believe it is far too common for the second of these aims to be overlooked. The present work fulfils both requirements in an eminent degree, and in its historical surveys exhibits an exceptional fairness of treatment, notwithstanding the author has been one of the foremost contestants in several of the fields reviewed. The summaries which follow the discussions of the several topics serve a useful purpose in directing attention to the more important conclusions drawn from each subject. I have aimed to give a clear and accurate reproduction of the authors ideas ;while I have endeavored not always successfully to avoid awkward renderings and German idioms, I have preferred to err on the side of a too literal rather than a too liberal translation. There are a few points that demand a brief explanation. The German word Anlage has heretofore been variously rendered into English by rudiment, origin, beginning, basis, foundation, etc., while some writers, recognising the inadequacy of any of these words to express the idea, have incorporated the German wo(Typographical errors above are due to OCR software and don't occur in the book.)
