Scientific Publishing : The Common Cold vs Flu chart: Laminated Wall Chart before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Common Cold vs Flu chart: Laminated Wall Chart:

The Common Cold vs. the Flu chart compares the causes, symptoms and treatment of these two respiratory problems. Images and text show normal inflamed tissue, inflammation of the bronchial airway and middle ear infection. A point by point comparison chart is included. Heavy gauge 3ml lamination with sealed edges and two metal eyelets for hanging makes chart highly durable. Write-on/wipe-off with dry erase marker (not included).
