It took me a few chapters to really get into the story, there were so many flowery descriptions and the main character just seems kind of odd. But after you get hooked, you can hardly put the book down. The Medicine Man begins to

seem like the hero he really is, and you begin to be very intrigued with the Girl and her history. Woven into the story line is lots of information about plants and their medical uses, some of which I sort of skipped over. But if you were interested in that sort of thing, it would be a bonus, I guess. If you've read and loved *Freckles* and *Girl of the Limberlost*, I think you'll love this book too. And if you're new to Gene Stratton Porter, you'll soon be hooked!!

By Linda While I mostly enjoyed this book, I have to admit that I became downright annoyed with the character of David Langston after a while. He does indeed leave one feeling that he is too good to be true. I love his integrity, work ethic, manners, love of all things natural, and that he can build from scratch a fine china hutch in less than a week. I guess what annoyed me is that he would not let the girl of his dreams do or think anything for herself. Without a doubt, he loves her passionately. But to him, showing that love seems to mean doing everything for her, right down to choosing her clothes, toiletries, everything. He also has a difficult time letting her finish what she starts to say and loves to tell her how she feels. While enjoyable overall, it is not of the same calibre as Porter's "*Freckles*" and "*A Girl of the Limberlost*." That said, I'm going to move on the next Porter novel on my Kindle in my quest to read them all.

To some it may seem really old fashion, and boring. But it truly is a treasure and a classic that spans time. Wish she were alive so that I could sing her praise for a BEAUTIFUL BOOK!!
