Anatomical Chart Company : The Immune System: Allergic Response Anatomical Chart before purchasing it in order to gage whether or not it would be worth my time, and all praised The Immune System: Allergic Response Anatomical Chart:

Designed to be used in conjunction with detailed texts on the subject, this chart provides an overview of the inner cellular workings of an allergic reaction. Illustrations and text walk you though the three steps of the allergic reaction: the initial encounter, primed, and activated. The chart provides visuals and definitions of allergens, antigen presenting cell (APC), T-lymphocytes, cytokines, B-lymphocytes, IgE, basophils, eosinophils, and mast cells.
