Marie-Paule Lefranc, Gerard Lefranc : The T Cell Receptor FactsBook before purchasing it in order to gage whether or not it would be worth my time, and all praised The T Cell Receptor FactsBook:

The T Cell Receptor FactsBook contains entries on all the 176 functional variable, diversity, joining, and constant regions of the human T cell receptor, including alpha, beta, gamma, and delta loci. Introductory chapters summarize

information of T cell receptor chain synthesis, chromosomal location, and an overview of the human T cell receptor loci.

"I consider the T cell Receptor FactsBook an indispensable reference. The T cell Receptor FactsBook has done an outstanding job." -- E-mail sent by Lee Hood (Systems Biology, Seattle,USA) to the authors on the 12 April 2002
About the Author Marie-Paule LeFranc nominated Senior member of the Institut Universitaire de France in August 2002.
