Kathryn L. McCance RN PhD, Sue E. Huether RN PhD, Kathy Baldwin RN PhD CEN CCRN ANP GNP, Jay Tashiro : Virtual Clinical Excursions for McCance and Huether: Pathophysiology: The Biologic Basis for Disease in Adults and Children, 4E (With CD-ROM for Windows and Macintosh) before purchasing it in order to gage whether or not it would be worth my time, and all praised Virtual Clinical Excursions for McCance and Huether: Pathophysiology: The Biologic Basis for Disease in Adults and Children, 4E (With CD-ROM for Windows and Macintosh):

0 of 0 people found the following review helpful. Virtual clinicalBy Christine R. MarzenThis book might be good for someone without health care or hospital experience, but after I looked through it and read its intended use, I realized that my 7 years of health care experience were probably much better than what the CDs could provide. I didn't even open the CDs.

This new breed of workbook supporting Mosby and W.B. Saunders' most prominent nursing texts contains an extraordinary new CD-ROM featuring a virtual hospital ward with five highly individual patients. Users can review their records, examine them, formulate nursing diagnoses, and plan appropriate nursing interventions. Each workbook lesson has a reading assignment from McCance Huether: PATHOPHYSIOLOGY:THE BIOLOGICAL BASIS FOR DISEASE IN ADULTS AND CHILDREN, 4TH EDITION, as well as activities that involve observing and interacting with the patients in the virtual hospital. The result in a uniquely "hands-on" way to master essential nursing knowledge!

About the AuthorKathy Baldwin, RN, PhD, CEN, CCRN, ANP, GNP, Associate Professor of Nursing, Texas Christian University, Fort Worth, TX; and Jay Tashiro, PhD, RN, Director of Systems Design, Wolfson Informatics, Sedona, AZ
