Text, 3e** before purchasing it in order to gage whether or not it would be worth my time, and all praised Wheater's  
Basic Histopathology: A Colour Atlas and Text, 3e:

A full color text/atlas of histopathology containing a superb collection of photomicrographs. The book is in two parts;

the first covers the basic pathological processes and the second, system-based pathology. Each chapter has a short introductory text and each illustration has an accompanying caption, making this a clear and concise book.
