**H.G. Burkitt : Wheater's Interactive Histology** before purchasing it in order to gage whether or not it would be worth my time, and all praised Wheater's Interactive Histology:

The first multimedia CD-ROM textbook of histology, features the most famous histology texts centralized on a single CD-ROM: a combination of over 850 "pages" and over 1200 images. The entire CD is extensively illustrated with color micrographs and illustrations detailing the structural features of cells. Functional Histology, Basic Histopathology and Self-Assessment in Histology
