The Workbook to Accompany Anatomy and Physiology Revealed, Version 3 by Robert Broyles is a workbook/study guide designed to help students get the most they can out of the Anatomy and Physiology Revealed (APR), and out of their anatomy and physiology course. The Table of Contents closely follows APR 3.0, and is organized along the lines of a typical Anatomy and Physiology course. The individual exercises include art from APR and also have review questions, tables, coloring exercises, terminology quiz questions, and reminders on key content.
